Consumers Reports gives Mac the nod as well as most professionals who want a superb outcome, such as musicians, writers, artists and photographers.

For years, the big rub against the Mac compared to Windows has been the cost. PC users say that why spend the extra money for the Mac when you can get the same thing with a PC?

Mac users say that the extra cost is well worth it when it comes to pure productivity, and there are much fewer problems with a Mac and you don't have to be aggravated with the gritty problems the PCs like to present to you.

Probably one of the most aggravating issues that PC users have to put up with is the periodic need to upgrade to a new operating system just because Microsoft decides that they need a new profit center. The software makers all demand higher and higher capacity, so Microsoft comes out with a newer and more expensive version of Windows to run it. Can anyone spell collusion?

As you learn and master the techniques that are mentioned in this eBook, you will continue to improve in your skill levels as well as obtaining increasing knowledge and confidence in your ability to use the Mac to assist you in whatever endeavor you are currently engaged in.
